SUBJECT INDEX

Abattoir survey of female genital disorders in camels, 290
  incidence, 291
Abscesses in slaughter pigs, 260
Absorption of lead in animals, 18
Activity of cattle in badger-contaminated pasture, 521, 522
β-Adrenoceptors in regulation of luteal function in cattle, 189
Aerobic bacteria in the horse, 244
Ampicillin, salmonella resistance to, 359, 362, 367
Anaerobic bacteria in the horse, 245
Analysis of feeds for zebu cattle, 542
Anoxia-induced changes in evoked potentials and EEG of hens, 322
Antibiotic resistance patterns of salmonella, 363
Antimicrobial resistance in salmonellae, 356
Antimicrobial sensitivity pattern of *Pseudomonas pseudomallei* isolates from pigs, 262
Apramycin, salmonella resistance to, 363, 364, 366
Arginine vasopressin concentrations in diarrhoeic calves, 533, 534
Argon stunning of hens, 322
Artificial insemination of dairy cows, 171
Aspergillosis in chicks
  appearance of lung, 552, 553
  gross pathology, 551
  histopathology, 552
  mortality, 551
  symptoms, 551
Aspergillus fumigatus in chicks, treatment by tetracycline sorbate, 549
Avoidance tactics of cattle in badger-contaminated pasture, 523

Bacteria
  abscesses in pyaemic pigs, 261
  clinical and subclinical mastitis in sheep, 418
  growth in the horse, 243
  subclinical mastitis in sheep, 416
  thoroughbred and non-thoroughbred horses and ponies, comparison in, 246
Bacteriological examination of ewes' milk, 576, 579
Bacteriological results in horses *post mortem*, 247
Badgers, likelihood of transmitting *Mycobacterium bovis* to grazing dairy cows, 517
Bamethan sulphate
  and luteal function in cattle, 192, 194
  to regulate luteal function in cattle, 189
Behavioural observations of beef cattle in a lairage, 445, 448, 450
Benzimidazoles with flukicidal activity, 309
  pharmacokinetic parameters, 316
Benzimidazoles and probenzimidazoles as flukicidal drugs, 313
Berenil (diminazene aceturate)
  profile in dogs, 155
  treatment for trypanosomiasis in pigs, 557
Biochemical and cellular composition in equine inflammation, 102
Blastogenesis in cortisol-treated and control calves, 65
Blood biochemical reference ranges for sows, 331
  assay methods, 333
  reference ranges, 337
Blood component values of zebu cattle
  effect of poor pasture, 539, 543
  effect of type of feeding, 539, 543
Blood composition of beef cattle at time of 'sticking', 449, 451
Blood and exudate cell counts in miloxicam-treated ponies, 103
Blood gas and acid–base values in calves, 232
  correlation between Po_2 values in brachial and coccygeal arterial blood, 234
Blood glucose levels in goats before, during and after transport, 46
Blood haemoglobin concentration in healthy and trypanosome-infected pigs, 562
Book reviews, 82, 183, 293, 394, 486, 585
Bovid herpesvirus 1, virulence of British isolates, 216
  clinical responses of infected calves, 223
  cumulative virus scores, 223, 224
  daily disease scores, 219
  11-day clinical scores, 221
  15-day clinical scores, 222
  virus excretion in infected calves, 225
Bovine fetal development, 203
Bovine tuberculosis, likelihood of transmission to cows by badger- contaminated pasture, 517
Breeding performance of sows, 332
Bruising in sheep, 120
  age of bruises, 122
  correlation coefficients between handling and behavioural problems, 124
  locations of bruises, 122
  locations at slaughterhouse where problems occurred, 123
  types of handling and behavioural problems, 123

Camels, female genital disorders, 290
Camelus dromedarius, abattoir survey of female genital disorders, 290
Canine haemangioendothelioma, 545, 546, 547
Caprine staphylococcal mastitis, 126
Capripox virus in cattle, 489

Catarrhal fever, malignant, in cattle, 31
Catarrhal rhinitis in a goat, 354
Cats, pharmacodynamics and pharmacokinetics in the cat, 298
Cattle
  abomasal foreign body and left-sided displacement in pregnant cow, 385
  blood gas and acid–base values, 232
  changes in udder quarters infected with *Corynebacterium bovis*, 463
  cloprostenol to control oestrus and ovulation in dairy cows, 171
  comparison of three hormone treatments to control oestrus and ovulation in dairy cows, 171
  effect of poor pasture on blood components of zebu cattle, 538
  effect of preslaughter handling on behaviour and blood composition of beef cattle, 444
  effect of trypanosomiasis on productivity in Nigerian Fresians, 275
  experimental malignant catarrhal fever, 31
  fixed-time AI of dairy cows, 171
  growth of bovine fetus, 197
  histological changes in vaginal mucosa after various treatments, 469
  lumpy skin disease, 489
  microscopic changes in infected bovine teats, 133
  pathogenicity and toxigenicity of *Mortierella wolfii*, 504
  regulation of luteal function, 189
  renin–aldosterone system and arginine vasopressin in diarrhoeic calves, 533
  response of dairy cows to badger urine and faeces, 517
  resting behaviour in a slaughterhouse lairage, 109
  Samorin treatment of trypanosomiasis, 278, 279, 280
  suppression of neutrophil function in cortisol-treated calves, 63
  transportation effects on calves, 455
  virulence of bovid herpesvirus 1, 216
Chloramphenicol, salmonella resistance to, 366
Chromatograms of trimethoprim in egg yolk and albumen, in feeding experiment, 348
Clinical signs of hog cholera, 400
Cloprostenol, as hormone to control oestrus and ovulation in dairy cows, 171
Clorsulon, structural formula, 309
Clostridium perfringens type A enterotoxaemia in pigs, 484
Comparative pathogenicity of *Mortierella wolfii* strains from cattle, 507
Concentration of lead
  in blood of animals, 21
  in milk of animals, 25
  in tissues, associated with lead ingestion, 22
  in tissues, related to intake, 26
Copper status and liver condition in tetrathiomolybdate-treated ewe-lambs, 426
Correlation between behaviour and handling of beef preslaughter and blood composition at 'sticking', 452
Cortisol affects neutrophil function in calves, 63
Cortisol-treated calves
  blastogenesis, 65
  leucocyte counts, 65
  neutrophil function, 63, 66
  plasma cortisol concentrations, 65
Corynebacterium bovis infection of bovine udders, 463
  gross and histopathological procedures, 464
  leucocyte infiltration, 465
  mammary parenchyma, 466
Creatinine and tylosin clearance in goats injected with tylosin tartrate, 213
Cytochrome *c* reduction
  of neutrophils in cortisol-treated calves, 67
  of phagocytes preincubated with sera from control and road- transported calves, 459
Cytogenetic analysis of canine haemangioendothelioma, 545

DENSITOGRAM of SDS-PAGE of sera from calves before and after cortisol administration, 69
Desoxycorticosterone pivalate for canine hypoadrenocorticism, 478
Detection of oestrus in cows, 471
DFMO to treat trypanosomiasis in pigs, 557
Diagnosis of hog cholera, 402
  differential diagnosis, 402
Diarrhoeic calves, levels of plasma renin, plasma aldosterone and arginine vasopressin, 533
Diazepam to suppress transport stress in goats, 388
Diet, effect on conversion of colonic propionate to glucose in ponies, 343
Diminazene aceturate (Berenil)
  profile in dogs, 155
    analysis, 157
    concentrations in various organs, 157–160
  treatment of trypanosomiasis in pigs, 558
Disease status of pigs, 334
Disposition kinetics of tylosin in goats, 207, 211
Dogs
  Berenil as antitrypanosomal agent, 155
  cytogenetic analysis of haemangioendothelioma, 545
  hypoadrenocorticism treated with desoxycorticosterone pivalate, 478
Double-antibody sandwich ELISA for IBD virus detection, 251
  technique, 254
Duration of grazing by cattle in badger-contaminated pasture, 525, 526
Dystocia in West African Dwarf goat, 283
  postures observed in fetuses, 285

EDUCATION, veterinary, 89
EEG of hens during stunning in argon-induced anoxia, 322, 326
  relative changes in frequency spectra, 327
Electrical stunning of birds, 71, 270
  broiler experiment, 72, 73
  effect on downgrading, 74
  effect on heart and brain function, 272
  effect on ventricular fibrillation, 74, 75, 273
  hens experiment, 73, 75
  quail experiment, 73, 75
  stunning treatments, 271
Electron micrographs of pigtails and tail tips, 410
Electrophoretogram of serum proteins in the sow, 338
ELISA
  for detecting IBD virus, 251
    test procedure, 253
  for detecting transmissible gastroenteritis and porcine respiratory coronavirus, 370
Enterotoxaemia in pigs, 484
Epidemiology
  and clinical description of equine rhabdomyolysis syndrome, 373
  of hog cholera, 398
Equine inflammation
  biochemical and cellular composition of inflammatory exudate, 102
  skin temperature measurements in miloxicam-treated ponies, 101
  use of miloxicam, 97
Equine respiratory tract microflora, 238
Equine rhabdomyolysis syndrome in the UK, 373
  age/sex distribution, 375, 376
  auxiliary signs, 379
  breed/type distribution, 377
  case reports, 378–381
  grades according to clinical severity, 383

monthly distribution of cases, 377
severity of cases, 379
Erythrocyte fragility of West African Dwarf sheep and goats, 163, 166, 167, 168
Euthanasia of mink 140
differences found between CO_2, CO and N_2, 143
individual phases with CO_2, CO and N_2, 142
movements, sounds, pathological–anatomical changes, 143
Experimental bovine malignant catarrhal fever, 31
antibody development, 35
clinical observations, 33
gross pathology, 35
herpesvirus 707K as immunizing agent, 32
histopathology, 35
serology, 32, 34
virology, 34

Fasciola hepatica in sheep, 306
Feeding experiment in laying hens, 346
Female genital disorders in camels, 290
Fetal development of Jersey fetuses, 197
Fixed-time AI of dairy cows, 171
Flukicidal drugs
fluke and worm combination products, 318
marketed in UK, 314
pharmacology, 306
structure and chemistry, 306, 307
Flunixin in the cat, 298
concentrations in feline plasma, 301
Froin's syndrome in sheep, 582
Future developments in hog cholera, 404

Gentamicin, salmonella resistance to, 363
Gluconeogenesis in the horse, 340
Glucose production rates in ponies fed hay or hay and bran, 342
Goats
blood glucose levels before, during and after transport, 46
catarrhal rhinitis due to *Pasteurella haemolytica*, 354
disposition kinetics of tylosin, 207
dystocia in West African Dwarf goat, 283
effect of diazepam on physiological responses to transport, 388
erythrocyte fragility of West African Dwarf goats, 163, 166, 167, 168
haematological values of West African Dwarf goats, 164, 165
hormone assays, 43
infection of dexamethasone-treated goats with *Pasteurella haemolytica* A2, 565
infection with *Haemonchus contortus* and *Trichostrongylus colubriformis*, 569
Nigerian, various characteristics related to oestrus cycle and plasma progesterone, 59
Pasteurella haemolytica in nasal cavity, 352
pentobarbitone as inhibitor of stress response to transport, 42
plasma cortisol concentrations before, during and after transport, 45
plasma progesterone levels in Nigerian goats, 57
scanning electron micrograph of rhinitis due to *Pasteurella haemolytica*, 354
scrapie in Cyprus, 147
staphylococcal mastitis, 126
transport stress, 42
Growth of bovine fetus, 197
trends, 200, 201, 202
Growth rate and onset of puberty in ewe-lambs treated with tetrathiomolybdate, 423

Haematocrit
of cattle before and after treatment with Samorin, 280
and parasitaemia in trypanosome-infected Nigerian Fresians, 279
Haematological values of West African Dwarf sheep and goats 164, 165
Haemonchus contortus in goats, 569
number of larval and adult worms in abomasum, 571
Halogenated hydrocarbons, actions against *Fasciola hepatica*, 307
HCO_3^- values in calf arterial blood, 235
Herpesvirus, experimental inoculation in cattle, 31
Histological changes in vaginal mucosa of cow after various treatments, 469
Histopathology
of intact and docked pigtails, 407
and pH changes of goats infected with *Haemonchus contortus* and *Trichostrongylus colubriformis*, 569
Hog cholera, 397
characteristics and properties of virus, 397
clinical signs, 400
diagnosis, 402
differential diagnosis, 402
epidemiology, 398
future developments, 404
pathogenesis, 400
pathology, 401
prevention and control, 403
Hormone analyses of plasma progesterone in ewe-lambs treated with tetrathiomolybdate, 423
Hormone assays in goats, 43
Hormone treatments to control oestrus and ovulation in dairy cows, 171
Horse
equine rhabdomyolysis syndrome in UK, 373
gluconeogenesis from propionate produced in the colon, 340
lung inflammation scores, 240
lungs, dorsal view, 242
microflora of lower respiratory tract, 238
miloxicam for equine inflammation, 97
pharmacodynamics and pharmacokinetics of miloxicam, 97
HPLC determination of trimethoprim residues in eggs, 346
Hypoadrenocorticism in dogs, 478
clinical signs, 480, 482

IBD virus detection by double-antibody sandwich ELISA, 251
Interactions between cattle and badger products, 517

Kinetic analysis of tylosin in goats, 208

Lead
absorption in animals, 18
concentrations in blood of lead poisoned animals, 22
concentrations in blood of normal animals, 21
concentrations in milk of animals, 25
concentrations in tissues associated with lead ingestion, 22, 24
concentrations in tissues of lead poisoned animals, 23
concentrations in tissues of normal animals, 21
concentrations in tissues of animals, related to intake, 26
effect of exposure to lead, 27
excretion, 27
sources, solubility and toxicity, 18
toxicity in animals, 18, 20
summary of present knowledge, 28
water solubility of lead compounds, 19
Left displaced abomasum in a pregnant cow, 385
Leptospira antisera, potency tests using Mongolian gerbil, 390
Leucocyte counts in cortisol-treated and control calves, 65
LH release in control and tetrathiomolybdate treated ewe-lambs, 425
Light and melatonin treatments in rams, 50
Lumpy skin disease in cattle, 489
aetiology, 490

clinical signs, 491
control and eradication, 500
diagnosis, 494
global importance, 501
histopathology, 495
lesions, 492
pathology, 494
patterns of disease, 497
prevention, 498
transmission, 497
virus isolation, 497

Lung
of chicks with aspergillosis, 552, 553
horse, dorsal view, 242
inflammation scores in the horse, 240
lesion score in lambs experimentally infected with *Pasteurella* spp., 441
Luteal function in cattle, involvement of β-adrenoceptors, 189
Lying behaviour of cattle in slaughterhouse lairage, 112
Lymphocyte blastogenesis in road-transported and control calves, 458
Lymphocyte and macrophage functions of road-transported calves, 455

Malignant catarrhal fever in cattle, 31
Mammals, wild, rehabilitation of, 1
Management of cattle in slaughterhouse lairage, 110
Meat inspection records for pigs, 257
Mechanical properties of ovine cervix, 432
Melatonin effects in rams, 49
Melioidosis in pigs
anatomical distribution, 265, 266
distribution, 262, 263, 264
epidemiology, 261
Microflora of equine respiratory tract, 238
Microscopic changes in infected bovine teats, 133
gross and microscopic findings in teats, 135
microbiological findings in milk, 134
Milk yields in trypanosome-infected Nigerian Fresians, 278
Miloxicam in equine inflammation, 97
pharmacokinetics in ponies, 103, 105
structural formula, 98
Mink euthanasia by CO_2, CO and N_2, 140
Mongolian gerbil for testing potency of *Leptospira* antisera, 390
protective effect of specific antiserum on leptospiral infection, 392
Mortality pattern in treated and untreated chicks with aspergillosis, 551
Mortierella wolfii strains from cattle, 504
cultural and microscopic examination of inoculated rabbits, 510
fungal strains, 505
response of mice to intracerebral inoculation, 508
toxigenicity studies, 506
Mustela vison euthanasia, 140

Neomycin, salmonella resistance to, 359, 361, 365
Neutrophil function tests in cortisol-treated and control calves, 66
effect of cortisol, 63
evaluation, 64
Nitrophenolic and bisphenolic compounds as flukicidal drugs, 310

Oestradiol benzoate, as hormone to control oestrus and ovulation in dairy cows, 171
Ovine cervix in pregnancy, labour and after parturition, 432
Oxytocin and luteal function in cattle, 193

Pasteurella haemolytica in goats, 352, 563
microscopic lesions, 567
Pasteurellosis vaccines for sheep, 437
Pathogenesis of hog cholera, 400
Pathogenicity
of staphylococci in caprine udder, 126
and toxigenicity of bovine *Mortierella wolfii* strains, 504
Pathological presentation in pyaemic pigs, 260
Pathology
and histopathology of *Haemonchus contortus* infection in goats, 570
and histopathology of *Trichostrongylus colubriformis* infection in goats, 570
of hog cholera, 401
Patterns of organ and tissue development in bovine fetus, 197
P_{CO_2} values in calf arteries, 235
PCV of healthy and trypanosome-infected pigs, 561
Pentobarbitone and transport in goats, 42
Pericarditis, traumatic, in a lamb, 78
pH
of abomasum of goats infected with *Haemonchus contortus*, 571
values in calf arteries, 235
Pharmacodynamics and pharmacokinetics of flunixin in the cat, 298
Pharmacokinetics
flukicidal benzimidazoles, 316
flunixin in cat, 302
miloxicam, 103
tylosin in goats, 211
Pharmacology of flukicidal drugs, 306
Pigs
blood biochemical references ranges for sows, 331
Clostridium perfringens type A enterotoxaemia, 484
ELISA for detecting TGEV and PRCV, 370
histopathology of intact and docked pigtails, 407
hog cholera, 397
pyaemia, 256
treatment of experimental trypanosomiasis, 556
Plasma aldosterone concentrations in diarrhoeic calves, 534, 535
Plasma component values in zebu cattle, 540, 541
Plasma concentration versus time graphs for flukicidal drugs in sheep, 312
Plasma copper concentrations in tetrathiomolybdate-treated ewe-lambs, 428
Plasma cortisol levels
in cortisol-treated and control calves, 65
in goats before, during and after transport, 45
Plasma flunixin concentrations in the cat, 300
Plasma LH levels in tetrathiomolybdate-treated ewe-lambs, 426, 428
Plasma melatonin concentrations in light- and melatonin-treated rams, 52
Plasma progesterone levels in Nigerian goats, 57
during oestrous cycle, 60
Plasma progesterone and oestradiol-17β profile of ovariectomized cows after treatment with progesterone and oestradiol benzoate, 475
Plasma renin activity in diarrhoeic calves, 534, 535
Pneumonic pasteurellosis induction in lambs, 439
summary of signs and mortalities post-infection, 440
Porcine respiratory coronavirus ELISA for detecting serum antibodies, 370
Poultry
anoxia-induced changes in evoked potentials and EEG of hens, 322
effect of electrical stunning, 71, 270
ELISA for detecting IBD virus, 251
tetracycline sorbate to treat *Aspergillus fumigatus* infection in chicks, 549

Preslaughter factors affecting occurrence of bruising in sheep, 120
behavioural observations, 121
management of animals, 121
Preslaughter handling of beef cattle, 444
Prevention and control of hog cholera, 403
Progesterone concentrations
in cattle
after bamethan sulphate, 192
after oxytocin, 193
after propranolol, 192
in dairy cows treated with hormones for oestrus and ovulation
control, 175–179
Progesterone and oestradiol-17β assay in cow, 471
Progesterone, oestradiol benzoate and cloprostenol compared as hormone treatments for controlling oestrus and ovulation in dairy cows, 171
Propionate production in the horse, 340
effect of diet, 343
in ponies, 342
Propranolol and luteal function in cattle, 192
Protein analyses in miloxicam-treated horses, 100
Pseudomonas pseudomallei isolates from pigs, antimicrobial sensitivity pattern, 262
Pyaemia in pigs, 256
incidence, 258, 259

RABBIT
kidney infected with *Mortierella wolfii*, 514
liver, appearance after infection with *Mortierella wolfii*, 511
Radiographic investigation of dystocia in West African Dwarf goat, 283
Radiographs of difficult births in West African Dwarf goats, 286, 287
RBC count in healthy and trypanosome-infected pigs, 561
Rehabilitation of wild mammals, 1
Renin–aldosterone system and arginine vasopressin in diarrhoeic calves, 533
response to diarrhoea, 535, 536
Respiratory tract, microflora in the horse, 238
Resting behaviour of cattle in a slaughterhouse lairage, 109
effect of group size, 114, 116
effect of presence of horned cattle, 114, 116
effect of sexual composition of group, 114, 115
effect of source of cattle, 113
Restriction endonuclease digest patterns of bovid herpesvirus 1, 217
Royal Veterinary College bicentenary, 95

SALICYLANILIDES as flukicidal drugs, 311
structural formulae, 308
Salmonella
antimicrobial resistance in, 356
serotypes with antimicrobial resistance, 356
Salmonella typhimurium, resistance to antibiotics, 359, 360, 361, 362, 363
Samorin as treatment of trypanosomiasis, 278, 279, 280
Scanning electron micrograph in goat with rhinitis, 354
Scrapie in Cyprus, 147
age of sheep, 150
clinicopathological data, 148
gross pathological changes, 150
histological examination results, 149
histopathological changes, 150
type, severity and distribution of lesions, 151
SDS-PAGE
of neutrophil suppressive sera of calves, 69
of sera from road-transported calves, 459, 460
Semen evaluation in light- and melatonin-treated rams, 54
Serological responses of calves infected with BHV-1, 226, 227, 228
Serum–lymphocyte reactions of road-transported calves, 456
Serum–macrophage reaction of road-transported calves, 457
Serum–neutrophil reaction of road-transported calves, 456
Sheep
bruising in, 120
erythrocyte fragility of West African Dwarf sheep, 163, 166, 167, 168
Froin's syndrome, 582
haematological values of West African Dwarf sheep, 164, 165
mean testis diameter in light- and melatonin-treated rams, 52, 53
melatonin effects in rams, 49
ovine cervix in pregnancy, 432
pasteurellosis vaccines, 437
pharmacokinetic parameters of flukicidal benzimidazoles, 316
plasma concentration versus time graphs for flukicidal drugs, 312
plasma melatonin concentrations in light- and melatonin-treated rams, 52
preslaughter factors affecting bruising, 120
scrapie in Cyprus, 147
semen evaluation in light- and melatonin-treated rams, 54
somatic cell counts of ewes' milk, 575
subclinical mastitis in southern England, 413
tetrathiomolybdate growth effects in ewe-lambs, 421
thoracolumbar epidural abscess, 582
traumatic pericarditis in a lamb, 78
Somatic cell counts of ewes' milk, 575
accuracy and specificity of counting procedure, 580
cumulative results, 577
distribution, 578
Somatosensory evoked potentials, effect of argon-induced anoxia, 325
Somatosensory evoked responses
in hens during stunning, 322
in turkeys, 270
Staphylococcal mastitis in goats, 126
Staphylococci
duration and species in subclinical mastitis in goats, 130
types in caprine mastitis, 128
Streptomycin, salmonella resistance to, 359, 361, 368
Stretch modulus of ovine cervix, 434, 435
Subclinical mastitis in sheep, 413
bacteriological culture, 414
dynamics, 416
number of milk-yielding glands giving positive or negative reaction, 417
period prevalence, 417
Sulphonamides
as flukicidal drugs, 317
salmonella resistance to, 359, 360, 368

TCA-soluble copper in tetrathiomolybdate-treated ewe-lambs, 429
Tetracycline sorbate
effect on body weight of chicks, 554
for treatment of *Aspergillus fumigatus* in chicks, 549
Tetracyclines, salmonella resistance to, 359, 360, 367
Tetrathiomolybdate, effect on growth rate and puberty onset in ewe-lambs, 421
Thoracolumbar epidural abscess in sheep, 582
CSF analysis, 583
Toxicity of lead in different species, 20
Toxigenicity studies of *Mortierella wolfii* from cattle, 506, 512
comparative toxicity in mice, 512
Toxin preparations of *Mortierella wolfii*, stability, 513
Transmissible gastroenteritis virus, ELISA for detecting serum antibodies, 370
Transport stress in goats, 42
Transportation effects on calves, 455

Traumatic pericarditis in a lamb, 78
Treatment
  aspergillosis in chicks, 549
  experimental trypanosomiasis in pigs, 556
Trichostrongylus colubriformis in goats, 570
  number of larval and adult worms in small intestine, 572
Trimethoprim
  concentrations in egg yolks in feeding experiment, 349
  ratio of intake to residue in eggs in feeding experiment, 350
  residue study in eggs, 346
  and sulphamethoxazole, salmonella resistance to, 361, 362, 365
Trypanosoma brucei brucei
  in dogs, 155
  in pigs, 557
Trypanosoma congolense in dogs, 155
Trypanosoma vivax in Nigerian Fresians, 279
Trypanosome infected Fresians in Nigeria
  duration of first lactation, 278
  mean daily milk yield, 278
Trypanosomiasis
  effect on productivity in Nigerian Fresians, 275, 277
  in pigs, 556
    haematological findings, 560
    parasitological findings, 559
Turkeys, effect of electrical stunning on somatosensory evoked potentials, 270
TXB_2 concentrations in cat serum after flunixin dosing, 303
Tylosin disposition kinetics in goats, 207

VACCINATION against lumpy skin disease, 499
Vaginal mucosa of cow
  dioestrus, 473
  metoestrus, 472
  oestrus, 472
  ovariectomized cows, 474, 475
  pro-oestrus, 474
Veterinary education, history, 89
Virulence of bovid herpesvirus 1, 216
Virus excretion pattern in calves inoculated with BHV-1, 225
Virus isolation in lumpy skin disease, 495

WATER solubility of lead compounds, 19
WBC count in healthy and trypanosome-infected pigs, 562
Weight gain in tetrathiomolybdate-treated ewe-lambs, 424
Whiteside test for subclinical mastitis in sheep, 415
Wild animals
  appendix of legislation of concern to wildlife rehabilitators, 13
  appendix of scientific and common names, 12
  in captivity, 5
  ownership and treatment of casualties, 6
  rehabilitation of, 1
  release after captivity, 8
  when to destroy or keep, 4
Wildlife casualties
  learning from, 8
  ownership and treatment, 6
Wildlife hospitals, exotic species in captivity, 10
Wildlife rehabilitation
